

DEVOLD® SHIELD

FLAME RETARDANT WOOL / LENZING BLEND

DEVOLD® SHIELD – is a collection of underwear and mid-layer suitable for working environment where you handle electricity, gas, heat and flame. Shield is knitted of FR® Lenzing and merino wool, with reinforcements in polyamide. In addition, Nega-Stat® is implicated. Nega-Stat® is a special yarn which gives the garments optimal antistatic protection. Shield also protects against arcing and electrical flashover. The garments are terry knitted and there is therefore a layer of air between the body and the garment that insulates against both cold and heat.
